## introduction

Ricky Nowak is one of approximately 50 Speakers in Australia who hold the International Accreditation of Certified Speaking Professional and is recognised for her high impact Presentations, Training and Business Coaching.

She specialises in helping people make a powerful connection to all levels of their business so their main points are heard and responded to in a way that gets the action they need % when they need it! Sustainable and measured results with teams, managers and executives for Australia's leading organisations such as, Australian Institute of Company Directors, CEO Institute, ANZ, Linfox, Horwath Commonwealth Bank and BMW testify to Ricky's ability and give her clients an exceptional Return on their Investment!

Ricky is also active in the Community and is a regular contributor to business magazines and journals locally and globally. Yet, despite authoring two books, audio cd's, working with high profile and high pressured environments, she feels her greatest success to date is being married to the same man for 28 years and having three wonderful adult daughters.
